Re: EPA Approval of Remedial Investigation/Feasibility Study Work Plan for the  
Harbor Oil Site, Final Revision 2, March 11, 2008

Dear Ms. Allen:

The United States Environmental Protection Agency has reviewed the revisions to the Remedial Investigation/Feasibility Study Work Plan for the Harbor Oil Site (Work Plan). EPA approves the Work Plan and requests a revised schedule be submitted for the field investigation and completion of the RI/FS. If EPA requests an amended Preliminary Site Characterization Report be prepared after Phase II sampling, the schedule for subsequent deliverables will be extended to accommodate the added preparation and review period. If you have any questions on this letter please call me at (206) 553-1478 or email me at [cora.christopher@epa.gov](mailto:cora.christopher@epa.gov).

Sincerely,

A handwritten signature in black ink, appearing to read "Cora", written over a circular stamp or seal.

Christopher Cora  
Project Manager
